## MISCELLANEOUS.

**Our Citizens Desire no Notoriety, but Are Always Ready to Proclaim the Truth.**

MRS. GEO. DAWLEY, of 76 Knight street, Providence, R. I., relates to our reporter her experience with the wonderful curative properties of what is destined soon to be the standard and leading specific of the whole wide world for kidney and liver diseases, etc. Mrs. D. says:

"Early last spring I was severely afflicted with torpidity of the kidneys and enlargement of the liver, and the kidney disease came upon me so fast and suddenly that before I was scarcely aware of the cause of my trouble I became badly bloated, and my body and limbs very much swollen, so that it was with great difficulty and severe pain that I was able to walk any. I became dreadfully troubled by being short-breathed, so that even a slight exertion or a little exercise would tire me almost to exhaustion, and I was so distressed when I retired nights that I could not sleep, and was very restless. One of my limbs especially had a very severe nervous pain, which always seemed to be more severe at night than at any other time, and would frequently ache so sharply as to arouse me from asleep. I was very nervous and uncomfortable all the time, and was being doctored, and taking all kinds of medicine for this complaint and that and the other, but all to no good purpose, until about the time when I was tired out and somewhat disgusted and almost discouraged with medicines and doctors, a relative and highly esteemed friend persuaded me to try Hunt's Remedy. I began to take it a few days ago, and am happily disappointed by the result, for before I had used a bottle of it I began to feel relieved, and soon commenced to sleep splendidly; the severe nervous pains in my limb which I had to handle so tenderly do not appear any more, my headache and backache have disappeared, I feel better every way, and rest well all night. The swelling has disappeared from my body and limbs; I am now able to do my housework comfortably and easily. Hunt's Remedy has certainly done wonders for me."

MRS. GEO. DAWLEY.

**Safe and Reliable.**

A. W. Brown, M. D., of Providence, R. I., says: "I have used HUNT'S REMEDY in my practice for the past sixteen years, and cheerfully recommend it as being a safe and reliable remedy."

Hunt's Remedy is purely a vegetable compound, scientifically prepared by a first-class registered Pharmacist, and will surely cure all diseases of the kidneys, bladder, liver and urinary organs.—Cor.

## TRUE Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause—liquor. The way to make a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and unhappiness into so many families.

It is a fact! BROWN'S IRON BITTERS, a true non-alcoholic tonic, made in Baltimore, Md., by the Brown Chemical Company, who are old druggists and in every particular reliable, will, by removing the craving appetite of the drunkard, and by curing the nervousness, weakness, and general ill health resulting from intemperance, do more to promote temperance, in the strictest sense than any other means now known.

It is a well authenticated fact that many medicines, especially 'bitters,' are nothing but cheap whiskey vilely concocted for use in local option countries. Such is not the case with BROWN'S IRON BITTERS. It is a medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, producing good, rich blood, health and strength. Try one bottle. Price $1.00.

## PACIFIC SLOPE.

**Details of the Arrest of Gray—The Sonoma County Seat Question—Grand Lodge, A. O. U. W.—Conviction at Oroville—Grain Trade Association Organized—Fire in Merced—A Boy Accidentally Killed—An Indian Acquitted of Murder—Etc.**

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

**CALIFORNIA.**

**Grand Lodge, A. O. U. W.**

SAN FRANCISCO, April 5th.—The Grand Lodge convened at 9 A. M., and opened with a full quorum of officers and representatives.

The following telegram was received from the Supreme Master Workman:

Many thanks. May the future of California be incessantly prosperous

WM. H. BAXTER, S. M. W.

Public installations were approved, and the G. M. W. was authorized to review the installation ceremony and prepare it for public use.

The P. G. M. W., G. M. W. and G. T. were constituted a committee to select and appoint a State Medical Examiner. The compensation of said Examiner to be 25 cents per certificate, to be paid by the applicant examined.

A constitution and by-laws were adopted for the degree of honor, permitting and recommending a beneficiary feature. This was adopted by an almost unanimous vote, and is considered to be a valuable action in favor of the degree of honor, that will be of great benefit to said degree and to the Order at large.

The appeal of J. Meuish vs. Unity Lodge, No. 27, was sustained, and the case returned to the Lodge for trial.

The Grand Lodge took a recess until 2 o'clock.

**California Grain Trade Association.**

SAN FRANCISCO, April 5th.—A meeting of large and influential grain dealers was held here to-day, and the California Grain Trade Association organized. A committee was appointed to draw up a uniform grain charter for use here, subject to approval at a future meeting. Another committee was appointed to draw up and submit a cargo contract form for sales in Europe. The recent unjust and excessive arbitration allowances on cargoes of California wheat in Liverpool was discussed, and a firm resolve manifested to have, if possible, some fair remedy or change. With this view the Chairman was requested to cable the proceedings to the Liverpool Corn Trade Association.

**Settlement of Railroad Tax Cases.**

SAN FRANCISCO, April 5th.—The railroad tax cases, in which the railroad company contested the assessments made by the State Board of Equalization, have been amicably settled in the following counties: San Diego, Kern, Merced, Calaveras, El Dorado, Placer, Nevada, Sierra, Butte, Yuba, Tehama, Yolo and Sacramento, also in the county of San Francisco the taxes for 1880 and 1881. Satisfactory agreements have also been made in relation to cases in several other counties, and will be settled within a few days. It is said that the law passed by the last Legislature in relation to the assessment of railroad property by the State Board of Equalization will operate satisfactorily, and that no trouble about such taxes will probably arise in future.

**The County Seat Question in Sonoma County.**

SANTA ROSA, April 5th.—The Board of Supervisors to-day determined the county seat matter in favor of Santa Rosa by a unanimous vote, and authorized the County Clerk to advertise for proposals to build the projected new Court-house in the plaza. A bona fide offer of $50,000 has been made by a prominent wealthy citizen for the present Court-house and Hall of Records property. Petaluma did not present a proposition for the county seat.

**Residence Damaged by Fire.**

MERCED, April 5th.—A fire broke out in the residence of H. Chapman, in this place, about 9 o'clock this morning, while Mrs. Chapman and other members of the family were temporarily absent in the flower garden, and before it was discovered the ceiling cloth, together with the window curtains and other drapery, had burned, setting fire to the furniture, bedding, pictures on the walls, etc., involving a loss to building and contents of from $300 to $600. The alarm was sounded and Eureka Engine Company turned out promptly; but before they got a stream on the fire it was extinguished by the neighbors with buckets of water and the use of a small hose.

**Murder in the Second Degree.**

OROVILLE, April 5th.—James T. Keefer was to-day convicted of murder in the second degree. The jury were out thirty minutes.

**Fall of a Painter.**

SONOMA, April 5th.—William Gobrie, a painter from San Francisco, while working on Clewe's new building, fell to-day and dislocated his elbow.

**Still Raining Down South.**

SAN BERNARDINO, April 5th.—It is still raining, and last night there were heavy showers.

**The Los Angeles Races.**

LOS ANGELES, April 5th.—The spring meeting opened at Agricultural Park to-day. There was a good attendance. The first race was trotting for the three-minute class, in which there were two starters—C. A. Paige's bay stallion Max and D. Paine's b. m. Kate Bender. The first heat was won by the mare, the stallion taking the three next heats. Time, 2:49½—2:41¼—2:42½—2:45. The second race was a half mile and repeat, with four starters—E. J. Baldwin's Albert C., Bland's Woodbury, Hill & Grie's Dotty Dimple, and H. M. Johnston's Dan. The first heat was won by Woodbury in 49½ seconds, the second by Dotty Dimple in 50¾, when, owing to the lateness of the hour, the race was not finished, but will be resumed in the morning.

**ARIZONA.**

**The Capture of Gray.**

TUCSON, April 5th.—The *Star's* Guaymas (Mexico) special says: John S. Gray arrived on the 1st of April in this city, and immediately endeavored to secure passage on some vessel going down the coast; but there were none ready to sail. He made no attempt to conceal himself, and was recognized by several persons with whom he conversed freely and publicly. The Chief of Police of San Francisco had sent a full description and photograph of Gray, requesting his arrest, to different parts of Sonora. Information having been received by the Governor of the State that Gray was wanted in San Francisco for the crime of forgery and embezzlement, and not wishing Mexico to be a refuge for foreign criminals, he sent a dispatch to the Prefect of Guaymas to detain said person in custody, which was immediately done. Governor Stoneman, of California, was immediately notified of this fact, and he telegraphed to the Governor of Sonora, requesting that Gray be detained until the proper papers of extradition, with an officer, could be sent from California for him. Gray, on being arrested, confessed that he was the person needed, and said that he was accused of the crime of having taken the public funds of the State of California; but the greater part of said funds was taken by other persons, whose names he did not wish to mention. He had but a small amount of money with him—less than $200—and no papers of importance. He says he wishes to return to California and stand a trial. He is detained in a room adjoining the jail, and guarded by a police officer. He is well treated. His meals are brought from the best hotel in this place, and he has the liberty of conversing with his friends.

**The Apache Situation.**

TUCSON, April 5th.—The Indian situation remains unchanged. Rumors have it that a band of eighty Indians are near the line in the Cannea mountains. Mexican troops are watching their movements. All the available military force is stationed at points where the Indians are liable to pass.

The *Star's* San Carlos special from Agent Wilcox says the captured Chiracahua states positively, and his evidence is supported by facts known here, that no reservation Indians have been in the recent raids. All is quiet here, with no appearance of discontent.

**NEVADA.**

**A Two-Year-Old Boy Drowned.**

RENO, April 5th.—The two-year-old son of David Whiteman, a farmer on the Carson river, was drowned in a small ditch a day or two ago.

**UTAH.**

**Conference of Mormons.**

SALT LAKE, April 5th.—The preliminary Conference of the Mormon Church opened this morning with the usual long prayers for the kingdom of God, but not a word for the American Republic. The regular Conference opens to-morrow morning. The city is crowded, and special trains are swelling the throng.

**Shot Three Times—Influx of Thieves—Crop Prospects.**

SALT LAKE, April 5th.—This morning a man by the name of Henry White was taken to St. Mary's Hospital with three bullet wounds in his body. He had trouble with a man named Steed at Farmington, north of the city a short distance, when Steed followed and shot him, inflicting three dangerous wounds. White made his escape, and reached Salt Lake this morning, after being exposed to a severe storm last night. There is a woman at the bottom of the trouble.

The city is infested with thieves, who have been on the line of the Denver and Rio Grande Railroad all winter. They are now making Salt Lake their headquarters, and their depredations are numerous.

The rain which has prevailed for the past three days stopped to-day. It assures excellent spring crops all over the Territory.

**OREGON.**

**Attempted Suicide—Indian Acquitted.**

PORTLAND, April 5th.—A. S. Rawley attempted suicide this morning by cutting his throat with a razor at Bell's boarding-house, and will probably die. He is 62 years old, and came here from Michigan about nine months ago with his wife and family. He has been a well-to-do farmer, but his wife squandered his money and then deserted him, and this led to the suicidal attempt.

A Corvallis special says: Ben Johnson, the Indian on trial for the murder of Dr. Hutchinson at Yaquina Bay last fall, was acquitted, the jury being out fourteen hours.

**Accidental Death of a Boy.**

THE DALLES, April 5th.—The six-year-old boy of Mr. Debec, who lives on the bluff, in this city, while playing with an open knife yesterday evening, fell, the blade entering the left temple and causing death in ten minutes. The agonized mother did everything to save the life of her boy, but all to no avail.

**WASHINGTON TERRITORY.**

**Items from Seattle.**

SEATTLE, April 5th.—The Dakota landed here yesterday 226 passengers from San Francisco—the largest number ever brought to the city on a single steamer.

It has been determined to build here another large public school-house, to accommodate at least 600 pupils, and to cost $25,000 or $30,000. The plan is to have three such houses. The first one is now finishing, to be followed this year by the second, and by the third in 1884.

A division of the Indian Agencies of western Washington has been ordered. There are two agencies now, but hereafter there will be four.

Michael Bagley, a boy 15 years of age, living with his folks at the Newcastle coal mine, attempted last Monday to ride into the pit on a car. He was thrown off in some way, and broke his leg. The broken bones were set at once, but not so as to give satisfaction, and on examination to-day it was found necessary to amputate the injured member. The boy is so far gone now that his life is despaired of.

The Seattle Driving Park Association, recently organized, has let a contract to build a grand stand capable of seating 1,000 persons, and also a judges' stand and a hotel. A track sixty feet wide and half a mile long will be made.

**PASSENGER LISTS.**

OMAHA, April 4th.—Left here to-day, to arrive in Sacramento April 8th: H. V. Lane, Japan; Walter W. Haye, Philadelphia; George B. Elder, Oshkosh, Wis.; Mrs. D. W. Holman, Chicago; E. B. Willis, St. Paul, Minn.; T. E. Lanlan, China.

Sixty-two through emigrants left on last night's emigrant train, to arrive in Sacramento April 11th.

CARLIN, April 5th.—Passed here to-day, to arrive in Sacramento to-morrow: J. C. Pelton, Jr., San Francisco; Miss Buzzell, Salt Lake; Mary Drost and four children, Omaha; J. L. Evans, San Jose; Louis Mel, Mrs. Hynes, G. S. Simons, San Francisco; H. W. Maxwell and wife, Brooklyn, N. Y.; Marcus Smith, Ottawa, Canada; M. R. Abbott, Wood River; A. C. McCready, Sioux City, Ia.; Mrs. John Gillespie and child, Cheyenne; T. A. Shirk, Indianapolis, Ind.; N. D. Garstir, London, Eng.; John J. Davis, Ogden; A. Busing, Hamburg; G. Banernschmidt and wife, Baltimore; 81 emigrant passengers, including 63 males, to arrive in Sacramento April 7th.

NEWHALL, April 5th.—Passed here to-day, to arrive in San Francisco to-morrow: Fred Pillsbury and family, Minnesota; J. Kapler and family, El Paso; S. Branhart, San Francisco; John Daley and prisoner, Joe Meyerstein, San Bernardino; John Cronnell, Arizona; Judge Brooks, Denver, Col.; G. V. Ewing, Chicago; Thomas J. Veach, San Francisco; T. F. Rodgers and wife, Oregon; Mr. Dew and family, Milton Santee, Los Angeles; J. Woodhouse, Florence Woodhouse, Utah; E. Lslumiere, Trenton, Mo.; William Schrage, Wisconsin; F. E. Scott, Houston, Tex.; J. Mitchell, San Francisco; J. W. Knox, San Jose; A. S. Perley and family, Maine; S. Haight, San Francisco; Jacob Lowe, Downey; A. Peabody, New York; Charles Nordale and wife, A. F. Pollock, San Francisco; M. Herman, Michigan; S. Faulk, San Francisco; H. E. Meyer, Denver; Thomas Reed, John F. Purdy, Mr. Burton and wife, New York; M. J. Newmark and wife, two children and servant, San Francisco; Mrs. D. C. Weeks, Mrs. E. Townsend, Mrs. Charles Pratt, Miss Helen Pratt, George Pratt, B. Clark, New York; Miss Johnston, San Francisco; D. M. Goodman and wife, Minnesota; A. R. Hughes, San Francisco.

OMAHA, April 5th.—Left here to-day, to arrive in Sacramento April 9th: J. D. Arthur, Oakland; Dr. E. D. Curtis, wife and child, Woodland; Huther Troutbeck, Napier, New Zealand; Marshall Bazing, Yokohama; F. Richard, New York; L. F. Geisler, wife and child, Nashville; Arthur E. Marten, Buffalo; Lee M. Mandell, Boston; J. F. Cooke, Cincinnati; B. W. Hooker, Detroit; Lieutenant Hardy and sixty recruits for Washington Territory.

Henry Villard and party passed through on a special train to-day for San Francisco.

GENTLEMEN: Your Hop Bitters have been of great value to me. I was laid up with typhoid fever for over two months, and could get no relief until I tried your Hop Bitters. To those suffering with debility or any one in feeble health, I cordially recommend them. J. C. STOLTZFUS,

683 Fulton street, Chicago, Ill.

"Humanity's great hope for the future is alone to be realized in improved conditions of matrimony. What a profound obligation does this fact involve! Those who realize the responsibility can hardly do better than take advice from Mrs. Lydia E. Pinkham, whose wonderful remedies for the cure of all diseases peculiar to women are so justly celebrated. Send for pamphlet.

An exciting contest was had in Santa Barbara county, to decide whether or not the city should expend $4,000 for the purchase of a steam fire engine. During the day 424 votes were cast, and a two-thirds vote was required to purchase the engine. Two hundred and eighty-three were cast in favor and 141 against the purchase, giving one majority for the purchase of the engine.

HORSFORD'S ACID PHOSPHATE is a preparation of the phosphates of lime, magnesia, potash and iron in such form as to be readily assimilated to the system. Descriptive pamphlet sent free. Rumford Chemical Works, Providence, R. I.

The Seattle *Herald* says: In consequence of scarcity, logs have advanced a half dollar per thousand, and are now selling for $7. After April 1st local mills will advance rates as follows: Rough lumber now selling at $12 per thousand will be advanced to $12 50, and flooring, tongued and grooved, from $19 50 to $20.

*** "There is no arguing a coward into courage." But even the coward may be brave after trying Kidney-Wort, that medicine of wonderful efficacy in all diseases of the liver and kidneys. It is prepared in both dry and liquid form and can always be relied on as an effective cathartic and diuretic. Try it.

A large party of emigrants passed through Tucson, A. T., last week en route to Southern California to engage in fruit-raising.

TO STRENGTHEN and build up the system, a trial will convince you that Brown's Iron Bitters is the best medicine made.

MOTHER SWAN'S WORM SYRUP, for feverishness, restlessness, worms, constipation. Tasteless. 25c.

## WONDERFUL REVELATIONS OF THE MICROSCOPE.

**Discovery of the Most Deadly Enemy of Mankind—the Bacillus and Its Ravages.**

The scientific world has been greatly startled and agitated of late by the discovery with the microscope of the most dreadful enemy of mankind in the form of myriads of little death-dealing parasites. The air we breathe and live in is charged with these deadly little growths in proportion as it is infected from various noxious sources. Having by recent experiments and research been shown to be the most fruitful cause of disease known, and the welfare and health of every individual depending so largely on the freedom from their destructive ravages, it is but natural that the reports of recent investigators in this field of scientific inquiry should be widely read, and that every phase of these astounding discoveries should be subject to universal discussion. At first received with some suspicion, they have at length been thoroughly proven, and are now receiving the unqualified indorsements of the leading scientific men throughout the world. But little else is talked of in the schools and clubs of science, and the medical and scientific journals are crowded with the testimony that is being added corroborative of the value of the marvelous discovery which is pronounced the greatest advance in medical science of modern times.

To L. Pasteur, the eminent French scientist, who by his learned investigations has saved to France so many millions of dollars, is probably due the honor of first pointing out the terrible power of these germs. In recognition of his great service the Government has recently voted him from the public treasury $10,000,000, with which to continue his experiments. He has described several varieties of these parasites, some comparatively harmless, others extremely dangerous. One form he proved by a series of vaccinations and other conclusive experiments was the cause of death of many thous

THE DAILY RECORD-UNION.

FRIDAY.....APRIL 6, 1883

All communications for publication, and all letters upon business with this office, should be addressed RECORD-UNION, WEEKLY UNION, or The Sacramento Publishing Company.

## THIS MORNING'S NEWS.

In New York Government bonds are quoted at 110½ for 4s of 1907; 113½ for 4½s; 102¾ for 3½s; sterling, $4 83@4 85½; 103¾ for 3s; silver bars, 110.

Silver in London, 50¾d; consols, 102 3-16d; 5 per cent. United States bonds, extended, 106½; 4s, 123; 4½s, 117.

In San Francisco Mexican dollars are quoted at 86@87 cents.

There was a larger business in mining stocks at San Francisco yesterday morning than for some time. Kentuck sold for the first time this month, and Imperial for the first time since the 20th ult. Albion sold freely at 5 cents, and Bodie at $1 30.

Details of the capture of Gray, the defaulter, are given this morning in a dispatch from Guaymas.

Santa Rosa has been chosen by the Board of Supervisors as the county seat of Sonoma.

In the billiard tournament at Chicago yesterday, occurred the greatest game ever played.

The labor bill which has passed the Wisconsin Legislature will throw nearly 3,000 children out of employment.

Severe and continuous rioting is reported along the line of the Panama canal.

Brigadier-General Joseph K. Barnes, U. S. A., died in Washington yesterday.

President Arthur and Secretary Chandler left Washington yesterday for Florida.

John A. Wilson, wife and two daughters were burned to death near Hartwick, N. Y., yesterday.

J. M. Merton, proprietor of the Morton House in New York, is dead.

A mine has been discovered near the Kremlin in Moscow, where the coronation of the Czar is to take place.

During the past week bullion in the Bank of England increased £378,000.

It is now stated that the Czar's coronation may not take place until June.

All the Russians who contributed to the comfort of the Jeannette and Rodgers crews have been decorated by the Czar.

Madame Charlenton was murdered in Paris, France, yesterday, by her husband.

General George W. Morgan was killed by a fall down stairs Wednesday at Mount Vernon.

A Fenian nitro-glycerine factory in full operation was discovered in Birmingham, Eng., yesterday.

The remains of Professor Palmer, murdered in Egypt by Bedouins, were buried in London yesterday.

An explosion of powder at Passo Correse, Italy, yesterday, killed forty persons and injured many others.

At Oroville yesterday James T. Keeper was convicted of murder in the second degree.

The California Grain Trade Association was organized yesterday in San Francisco.

A. W. Sheldon, of Maryland, has been appointed Associate Justice of the Supreme Court of Arizona, vice W. W. Hoover, removed.

A fire at Iquique, Peru, caused damage to the amount of £2,000,000.

A law has been introduced in the New York Senate prohibiting the personation of Jesus Christ upon a stage.

Over 200 prominent Knights Templar of Iowa are coming to California to attend the Triennial Conclave.

B. H. Raymond, who was Chicago's third Mayor, died in that city yesterday.

A six year-old boy fell on a knife at The Dalles, Or., yesterday, receiving injuries from which he died in ten minutes.

A. S. Rowley cut his throat with a razor in Portland, Or., yesterday.

Ben Johnson, an Indian, on trial at Corvallis, Or., for murder, has been acquitted.

The annual Conference of the Mormon Church opens in Salt Lake to-day.

The Marquis of Lorne desires to be Governor-General of Canada another year.

Reserved seats for the coming dramatic festival in Cincinnati have been sold to the amount of $51,011.

Two farmers fought near Sherman, Tex., yesterday, when one received three bullets in his body.

The seventh-day worshipers in Pennsylvania are not exempt from the operations of the Sunday law.

There is no abatement in the small-pox scourge at Galena and Empire City, Ill.

Robbers murdered Barney Doyle and his daughter at West Union, W. Va., Wednesday night.

## SANITARY REGULATIONS FOR SACRAMENTO.

The rainy season is practically over, and it is time, therefore, to again urge upon the city authorities the necessity of giving especial and immediate attention to the sanitary condition of the city. We need a declaration of independence from preventable diseases. Our local Board of Health has pointed out, among many others, two directions in which practical action may be taken without a dollar of cost to the city purse—the adoption of regulations requiring, under heavy penalties and within a given period, all vaults containing matter that will poison the ground by saturation, to be thoroughly cleaned, and then either filled or closely cemented, and requiring all new pits to be constructed with cement sides and bottoms. This should be done the moment the river reaches its low stage, and therefore it is time now to give notice. This is a reasonable regulation, is an economic measure, is approved by all sanitarians, and will do much to prevent a recurrence of the disease and mortality of last year. Another regulation that should be adopted and rigidly enforced by ordinance, and under supervision of the Health Board, is to require every cesspool ground drain from a house to be trapped, and a pipe extending into the upper air fitted between the trap and the cesspool. This will cost each house-owner but a few shillings, but the health officials declare that it will prove one of the most beneficial of provisions, since the gases will take the direction of the least resistence, and not enter the houses. The adoption of such regulations should not be delayed a day longer than is absolutely necessary. At the meeting of the Health Society of England, last November, it was resolved that there should never be any passage of air from drains or waste pipes into any house. The health department of Detroit has arrived at a similar conclusion. The Boston Board of Health has ordered every drain "to be ventilated by a four-inch straight pipe extended above the highest point of the roof of the house in every instance, and terminating at a distance from any chimney or other ventilator." In Syracuse, New York, all drains are ordered to have suitable openings for escape of sewer and cesspool gases. Dr. O. W. Wright, Health Officer of Detroit, who believes in diminishing sickness and mortality by cleanliness, says if we wish to make a town unhealthy, an excellent plan is "to use untrapped and unventilated drain pipes, that volumes of putrefactive gas, laden with invisible bacteria, may freely enter or rise up about the habitations of the citizens; then dig a great hole in the ground to treasure up the vilest excreta for years, and when it is nearly full throw in earth and dig another, that the porous soil may drain and drink up the putrescent mass, and do more to poison the ground than a whole graveyard full of corpses. In this way we may be certain of having plenty of malarial fever, typho malarial or typhoid fever, diphtheria, dysentery and other filth diseases." Colonel George E. Waring, Jr., a reputable sanitary engineer of broad experience, declares that the flow of house drainage through vertical into soil-imbedded pipes not trapped and ventilated is dangerous to the household. In New York, Brooklyn and Washington the sanitary regulation of all houses as to drains, etc., has been eminently successful. The American Public Health Association, in October, 1882, indorsed the system of sanitary inspection which includes the suggestions made in this article. Many houses are properly drained, many vaults properly constructed, many drains ventilated and kept in order; but what profit is it to "A," who observes these precautions, while "B's" lot adjacent is the source of poisonous vapors that engender disease? It is for the negligent that regulation is demanded, that the willing may be protected. Sacramento stands very well indeed in health annals beside other places, but that proves only her comparative cleanliness. She should stand better, and may, and if she does not, it will be because of willful neglect from this date forward.

## A POLITICAL ERROR.

The new State Board of Horticulture met in this city yesterday and organized. But six members were present of the nine constituting the Board. At least one of these could not, by any possibility, have received his commission in time to have reached here for the meeting. There was, besides, one vacancy. It would have been better to have had a full Board. Two of the six either took no part in the choice of, or voted against, the Inspector of Fruit Pests who was elected. This raises a serious question as to the validity of the election of Inspector, no majority of the Board voting for W. M. Boggs, of Napa, a very worthy citizen, who was chosen President of the Board and also Pest Inspector. The law requires that the Inspector "shall be a competent person, especially qualified by practical experience in horticulture for the duties of his office." Mr. Boggs, who is a notary and real estate agent, admitted at the meeting that he has not had experience in horticulture for ten or twelve years. Within that time the fruit pests have appeared in California. On being asked by a member of the Board as to what are the chief fruit pests in California, and the best remedies, Mr. Boggs could give no satisfactory reply, but did say he could read and study up the question. It appears, also, by his own statement, that he had heard little or nothing of the late Chief Executive Horticultural Officer, whose labors for four years at his own expense, and two years for the State, in checking the ravages of fruit pests, form the chief part of the history of the subject, and have been discussed throughout the nation and in foreign lands. The State should not suffer while Mr. Boggs is studying and qualifying himself. There are microscopists, entomologists and horticulturists in the State thoroughly qualified for the place now. We fear that fruit interests, now so much threatened, will suffer still more if the Board adheres to the appointment of a gentleman who, however estimable as a citizen, is not specially qualified for the position, as the law contemplates, and who, as appears by his list of indorsers, was chosen because he sought the office, and because of his party politics.

## IMMIGRATION.

The journals of Oregon and Washington Territory boast that their sections receive the cream of the immigration coming to the coast. We are not prepared to admit it, but it is certainly true that more of it has passed by us than should. This is due to several causes. The failure, until a comparatively recent period, to disseminate correct information regarding the advantages of the State for the immigrant with some means and willing to labor and wait. The trumpeting abroad wonderful stories concerning our climate and soil, and its capacities, without definite information to enable the intending immigrant to avail of them. The dwelling too long and often upon our natural wonders, by which the desirable settler has been led to believe we cared only for the tourist; and lastly, failure to point out clearly the obstacles to be encountered and overcome, as well as the profits to be reaped and the advantages to be enjoyed. Immigration has been retarded, in short, because of the lack of specific information as to lands, methods, means required, cost of production, return of the soil, etc. Generalization has heretofore been the rule and detail the exception. Happily a change has been instituted, and already the good results are manifest. The immigrants coming in now are well informed as to what they must encounter; have sufficient capital, are prepared against disappointment, and have definite localities provided or in view, and are of a class fitted for labor in the varied fields of California production. With the disintegration of great land-holdings, the dissemination of facts concerning California, and the increase of facilities for cheaply reaching the coast, we are justified in anticipating a sufficiently large and a choice immigration from this time forward.

## INVITING HARMONY.

The note of preparation has been sounded in New York for uniting in harmonious accord the late discordant elements of the Republican party, that an unbroken front may be presented in 1884. The *Times* says the Republicans of all shades are alive to its necessity, and are ready to contribute to it. The Albany *Journal* assents, but points out that it is not enough to have faction leaders shake hands—the rank and file of the Garfield wing must be placated, and the fact recognized that these people revolted for a principle. The better sentiment is that unity cannot be brought about by the craft of the machine men—it must be the result of the consent and act of the Republican masses, who will not forego their antipathy to the reign of the "bosses." The *Post* says the great end to be attained is the recalling to their allegiance of the rank and file that, disgusted with the conduct of their own party, went over to the opposition. A conference of representative Republicans is to be held soon at Saratoga, the object being the dissolution of factions and the substantial union of the party. There are cheering indications that these ends will be accomplished, and that the Empire State will lead the van in the new campaign of a compact and invincible Republican host, united upon principles of patriotism, and animated by a new-born party spirit that has greater and better stimuli than lust of office and the triumph of men.

It is very difficult for men who judge justly to understand why certain papers constantly object to low rates by rail between Sacramento and San Francisco, between which points competition is felt, while for intermediate points, where no competition exists, normal rates prevail. Do these papers seriously contend that the railroads shall not compete with the waterways, and shall yield traffic to them, or else extend commercial advantages to non-competitive points equally with competitive ones? There is not a business man or carrier in the country but knows such a practice is opposed to the commercial principles of the age and cannot be established without ruinous consequences to every one interested, both shipper and carrier. Yet that is exactly what is contended for by the unreasoning press.

It is a matter for public congratulation that Gray, the absconding defaulter of the Harbor Commission, of which body he was Secretary, has been captured, and is to be returned that justice may be meted out to him as he deserves.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

## DOMESTIC.

### The Panama Canal.

BOSTON, April 5th.—The *Herald* says: Captain Appleton, of this city, De Lesseps' American agent, has returned here from Panama. He gives an enthusiastic account of the progress of work on the canal. Of the 6,000 laborers employed, only twenty-five are sick with fever in the hospitals, which are clean, commodious, and well managed. The Canal Company is expending about $500,000 on employes monthly, money is plenty on the Isthmus, and thousands are attracted there to make some of it. Another $50,000 a month is spent in the offices of the company in Paris and New York, and in the purchase of machinery and material in different sections of Europe and America. The capital of this company is $60,000,000, of which not one-half has been spent. Added to this $25,000,000 in bonds for the purchase of the Panama Railroad and other expenses which are exclusive of the canal fund, and we have $85,000,000. This is enough to carry on the work for two or three years, when, doubtless, another issue of stock or bonds will be made. It is a curious fact that the stock of the company, of which the par value is £500, has very seldom been below that figure. Being asked, "What is your estimate of the probable expense of the construction and the necessary time to complete the undertaking?" Captain Appleton said, "I do not hesitate to say that it is of little import, if it should cost $500,000,000 and take twenty years to build it, for it is for all time and for all nations."

H. B. Slaven, an enterprising young Californian, is the first American who has had the pluck to take hold of the actual work of dredging, and to facilitate his operations he has formed a dredging company, its stockholders being some of the solid capitalists of San Francisco and New York, he being President. Three of their machines have been ordered, at an expense of $125,000 each. Should this machine succeed, Slaven and his associates will doubtless be asked by the company to continue the dredging up the bed of the Chagres river, at least one-third of the distance across the Isthmus.

The *Herald* editorially says: The statement made by Menocal that the Nicaragua Company intends to begin operations within a few weeks, is interesting but hardly conclusive. We very much doubt whether it is possible to raise in this country the forty-five million dollars needed to construct the canal across Central America, particularly as it has yet to be demonstrated that the undertaking at Panama will prove a failure. There is every reason now to believe that it will be successfully carried out. As a military measure, the canal at Nicaragua is an undertaking which our Government might undertake, but the scheme is not an attractive one from a capitalist point of view, and we very much doubt whether Menocal and his friends are likely in the mean time to raise even one per cent. of the money they require from genuine investors.

The *Herald*, reviewing the Rogers Panama Canal report, says his conclusions will not encourage an investment, but they sound like good sense, certainly. If it has cost 13,000,000 francs to get ready, to scratch away rubbish and mark out the ground, four or five times as much will not suffice; it will take twenty times as much to complete the canal with such cuts as are described.

### The Dead Surgeon-General.

WASHINGTON, April 5th.—Adjutant-General R. C. Drum this afternoon issued, by order of General Sherman, an order announcing the death and reviewing the services of Brevet Major-General Joseph K. Barnes, Brigadier-General of the United States Army, retired, and late Surgeon-General of the army, wherein it is stated that he entered the service as Assistant Surgeon in June, 1840, was promoted Surgeon in August, 1856, to Medical Inspector, with the rank of Lieutenant-Colonel, in February, 1861, to Medical Inspector-General, with the rank of Colonel, in August, 1863, and to Surgeon-General, with the rank of Brigadier, August 24, 1864. He was retired from active service by the operation of the law of June 30, 1872, was an eminent, skillful surgeon and physician, distinguished for great administrative ability as the head of the medical department. He inaugurated the medical history of the war, founded the medical museum, and brought the medical department to the highest state of efficiency. At the time of the assassination of President Lincoln and the attempted assassination of Secretary Seward, he attended the death-bed of one and ministered with untiring energy and skill to the successful restoration of the other. During the long illness of President Garfield he was one of the distinguished surgeons of the land who for days and nights attended the dying President. During these long, protracted hours of anxiety and care his own health gave way, and from that moment to the time of his death he was an invalid. The order closes: "His career was one of honor to himself and great service to his country."

### Billiard Tournament.

CHICAGO, April 5th.—The afternoon game in the Brunswick-Balke tournament proved to be the greatest game yet played. Schaefer had for his opponent Joe Dion, who had wagered some money that Schaefer could not average twenty against him, and who accordingly studied safety throughout; but it made no difference. Neither bad breaks nor the fact that Dion himself was playing better than he had previously done could stifle Schaefer's splendid execution and great command of the rail for nursing. He made nearly five-sixths of the total game in five separate innings, and put on record the best average and quickest game ever played. Score: Schaefer, 600; average, 40; highest run, 166. Dion, 248; average, 17 10-14; highest run, 59. Time, one hour and thirty-five minutes.

To-night's game was between Daly and Sexton, the latter being the favorite at odds of $100 to $70. The character of the game showed this estimate to be erroneous, as Daly from the first played in strong form, while Sexton was away below par. Daly took a commanding lead in the early part of the game, and was never headed once. Score: Daly—600; average, 13 2-46; highest run, 89. Sexton—397; average, 7 15 46; highest run, 73.

### Hoover Bounced.

WASHINGTON, April 5th.—The President to-day appointed A. W. Sheldons, of Maryland, to be Associate Justice of the Supreme Court of Arizona, vice W. W. Hoover removed. Hoover, who is a Californian, was appointed on the recommendation of Senator Miller and George C. Gorham. The charges against Hoover were published in full in the dispatches of the 19th of March. An investigation of the accusations was made by the Department of Justice, and it is said the result proved Hoover's unfitness for the place.

### Another Rap at the "Passion Play."

ALBANY, April 5th.—A bill has been introduced in the Senate, and immediately ordered to a third reading, to prevent any attempt to personate or represent Jesus Christ by a show, play or dramatic presentation, whether free or for an admission fee, and declares the violation of its provisions a misdemeanor, punishable by a fine of not less than $100 and imprisonment for not less than six months.

### The Star Route Case.

WASHINGTON, April 5th.—Vail was cross-examined in the star route trial to-day, but nothing of importance was developed.

John W. Dorsey was then called. He said his brother had endeavored to dissuade him from embarking in the star route business. He denied the conspiracy, and said he had spoken to Brady but once in his life. The further examinations were unimportant.

### An Aged Scoundrel.

BUFFALO, April 5th.—James Robinson, 76 years old, recently married in this city to a Toronto lady through an advertisement and by giving her a check (bogus) for $100,000, decamped to Canada, taking with him $75, a gold-headed cane and an overcoat, the property of Rev. Dr. Stratton, who performed the ceremony. Robinson was arrested at Hamilton, Canada.

### Unprecedented Sale of Reserved Seats.

CINCINNATI, April 5th.—The auction sale of season tickets for the dramatic festival was continued to-day with unabated interest. The total number of seats now sold is 1,660, and the total receipts $51,011. Of this, $27,771 is in premiums. The sale is entirely unprecedented. The auction will be continued.

### Father and Daughter Murdered by Robbers.

WEST UNION (W. Va.), April 5th.—Barney Doyle and daughter were murdered last night by robbers. He was known to have kept money in his house. A second daughter was beaten with a poker and left for dead, but recovered to-day and told the story of the crime.

[SECOND DISPATCH.]

WEST UNION (W. Va.), April 5th.—Doyle was cut all to pieces, more than a score of gashes being found on his body. There were cuts in the head, through all of which the brain was oozing. Near by Doyle lay the bodies of the children, who had been in bed, and were awakened by the attack on their father. One of the children was dead when found. The elder exhibited signs of life, and by great care was restored to consciousness long enough to identify the murderer, James Harper. Harper at night fiddled for country dances. In the room in which the murder was committed a chest with the lid shivered was found, and the contents scattered about. Coins were found where the robber dropped them in his flight. The robber undoubtedly obtained several thousand dollars. It is thought Harper had the assistance of a man named McKinley, who has been arrested as an accessory. Another man named Weekly, also suspected of complicity, is now under bail for threatening to kill Doyle for the seduction of his wife some months ago. The citizens of the town and country are greatly excited, and talk of lynching is rife. Harper, McKinley and Weekly have been lodged in jail. The little girl still lives, and should she adhere to her statement it is likely that all will be lynched.

### The Small-pox Scourge.

TOPEKA (Ks.), April 5th.—Information from the towns of Empire City and Galena, which are only separated by an imaginary line, is to the effect that there is no abatement in the small-pox scourge there. The business of all the towns is entirely suspended, and the local authorities have exhausted all the funds at their command. In Galena alone there have been fifty deaths. The population is mostly people of slender means.

NASHVILLE (Tenn.), April 5th.—The small-pox is unabated, with seven new cases to-day.

### The Reorganized Mormon Church.

WILLOUGHBY (O.), April 5th.—The first of a series of annual conferences and reunions of the reorganized Mormon Church, or Latter Day Saints, opens to-morrow at Kirtland, a country village three miles south of here. The meetings will be held in the old Mormon Temple built by Joseph Smith in 1842. Joseph Smith, Jr., son of the original Mormon prophet and President of the reorganized church, will preside.

### Elephant Killed.

NEW YORK, April 5th.—Barnum's elephant, "Pilot," was killed to-day. He had become intractable.

### The Sunday Question in Pennsylvania.

HARRISBURG, April 5th.—The bill exempting those who observe the seventh day of the week from the penalties of the Sunday laws of 1794 was defeated in the House by 37 ayes to 130 noes.

### Desperate Farmers.

SHERMAN (Texas), April 5th.—Two farmers named Miller and Carpenter, had a fight to-day. Miller received three bullets and is likely to die. They fought twice before with knives.

### Waterspout at Nashville.

NASHVILLE (Tenn.), April 5th.—A waterspout occurred here this morning, flooding the streets, accompanied by the most vivid lightning and terrific peals of thunder and a strong gale. A still heavier rain is in prospect.

### Thermometrical.

NEW YORK, April 5th—Midnight.—Highest temperature to-day, 72°; lowest, 44°.

CHICAGO, April 5th.—Highest temperature to-day, 56°; lowest, 35°.

## FOREIGN.

### Nitro-Glycerine Sensation in England.

BIRMINGHAM, April 5th.—The city police made a raid upon suspected localities in Lensam street, Ladywood, and discovered a Fenian nitro-glycerine factory in full operation. It is learned that the premises were taken some two months ago by a man named Whitehead, who is an Irish-American, and who had a sign hung out in front of his place indicating that his business was that of a paper-hanger. Whitehead himself was taken into custody when the police made the descent on the den, and is now in close confinement. A considerable quantity of nitro-glycerine was seized by the officers at the same time. Information now in the hands of detectives tends to demonstrate that this place is the central manufactory of explosives, and the most important depot of all the infernal contrivances in the kingdom. Whitehead, who is described as a man about 25 years of age, is of dark complexion, and with a marked American accent.

LONDON, April 5th.—The exciting events of the day crowded each other so fast that their importance could scarcely be realized until the later hours of the night admitted a complete summing up. The surprises include the unearthing of the most important dynamite factory ever discovered; the arrest of four ruin-breeders in London and one in Birmingham; an attempt on the Government magazine in Ireland; the receipt of an incendiary letter in London, and the discovery of an astounding and audacious scheme of the Nihilists to blow up the Czar's residence at Moscow. The excitement over these affairs is not confined to Government officials, but is apparent on the street to even the most casual observer.

### Trial of the Phœnix Park Murderers.

DUBLIN, April 5th.—At the trial of the prisoners charged with the Phœnix Park murders, the photograph of a man named Tynan, recently alluded to by the name of Tyner, will be produced. This photograph has been identified by Carey, the informer, and three others, as that of "No. 1." It is stated that a portion of the money with which Tynan was intrusted for distribution can be traced to the Invincibles. The Government is in possession of an affidavit to the effect that Tynan and "No. 1" are identical. The Crown Solicitor will strongly object to the request of the accused for a postponement of the trial. Peter Carey, a brother of James, has been accepted as an informer. Evidence will be adduced showing that the Dublin directorate consisted of Tynan, known as "No. 1;" James Mullett, known as "No. 2;" James Carey, "No. 3;" Daniel Curley, "No. 4;" and Edward McCaffery, "No. 5."

### England's Financial Condition.

LONDON, April 5th.—In the House of Commons to-day Childers, Chancellor of the Exchequer, explained the budget for the financial year ended March 31st. The total revenue of the year was £89,004,000. This exceeds the estimates by £49,064,000. The expenses of the war in Egypt, including the amount contributed to defray the cost of the Indian contingent, were £3,896,000. There fell to the present administration of the Government an inheritance of £7,850,000 war charges, which have been paid out of the taxes. He had no arrears whatever to report on account of war expenditures as incurred by the present Government. For the coming year he estimated that the expenditures would be £85,789,000. The national debt was reduced the past year about £7,100,000. He expected to be able to report a further reduction this year of about £3,000,000. He further expected to see the debt reduced the next twenty years by £172,000,000. He proposed that the tax on railway earnings, where fares were very small in amount, be abolished; that provision be made looking towards the reduction of rates for telegrams sent anywhere in the land to sixpence each, and that 3½ pence of the income tax be removed. This last measure would, according to the speaker's estimates, reduce the revenue of the Government £2,135,000. This first report of the new Chancellor was received with much favor, and at its conclusion there were loud and prolonged cheers.

### Wife Murder in Paris.

PARIS, April 5th.—Madame Charlenton was murdered to day by her husband. The Charlenton family became notorious through a recent sensation at a seduction trial. The story of the case was that Madame Charlenton gave shelter and protection to a young lady, Fidelia Demonsterio, against an attempt of her mother to confine her in a madhouse. The young woman was taken by force from the Charlenton mansion by Carlos Lafit, a natural son of Madame Demonasterio, who is a widow.

### Frightful Powder Explosion.

ROME, April 5th.—The powder depot at Passo Correse, for the use of engineers conducting operations there, exploded to-day. Forty persons were killed and many injured, some fatally.

### Violent Popular Demonstration.

BELGRADE, April 5th.—A violent popular demonstration against the authorities occurred at Griju to-day. The people were ordered to disperse to their homes, but refused, and the mounted police were finally called upon to suppress the disturbance. The police, with drawn sabers, charged the crowd of men, women and children, and many persons were cut down. Others were trampled under the horses' hoofs.

### Disastrous Conflagration in Peru.

PANAMA, March 30th.—The *Star and Herald* has the following dispatch from Iquique: A fire on the 10th destroyed ten blocks and part of four others. The railway offices were burned, but the workshop was saved. The churches were destroyed. The fire did not extend west of the churches. About 1,000 houses were destroyed, doing damage estimated at £2,000,000. Jamieson's, Dawson's, Gilldemaster's and Blair & Leath's stores were destroyed. Cable communication with Iquique was cut off at one time.

### More Catholic Intolerance.

MONTREAL, April 5th.—Archbishop Laschereau has informed the Faculty of the Montreal Medical School that they must sever connection with the Victoria College, or come under the anathema of the church. The Superior of the Hotel Dieu Hospital has an order from his Grace, directing that medical students of Protestant colleges shall not be admitted. It is alleged that some members of the Faculty of the Montreal school have expressed to Bishop Fabre their acquiescence in the Pope's mandate.

Grasshoppers and crickets afflict Washoe county, Nevada.

**An Entire Family Cremated—The Wisconsin Labor Bill—Rioting in Panama—Death of a United States Surgeon-General—The President off for Florida—Coronation of the Czar—The Treaty Between Italy and Austria—Bank of England—Mine Discovered at Moscow—Etc.**

[COLLATED FROM LAST NIGHT'S DISPATCHES.]

Queen Victoria took a drive yesterday.

J. M. Morton, the proprietor of the Morton House, died in New York yesterday morning.

B. W. Raymond, the third Mayor of Chicago, died in that city yesterday forenoon, aged 82.

The Marquis of Lorne expresses a desire that his term as Governor-General of Canada be extended another year.

More than one hundred vessels passed up through the New York narrows between sunrise and sunset Wednesday.

At Montreal, Leduc & Vallois, tanners of St. Scholastique, have suspended. Liabilities, $60,000; assets, $24,000.

The carriage ways and promenade of the East River bridge need now only the lattice railing to be pronounced complete.

The weekly statement of the Bank of France shows a decrease of 1,850,000 francs in gold and 500,000 francs in silver.

A fresh mission goes from Brussels to the Congo to join Stanley in his explorations, and consists of Swedes and Belgians.

The centennial anniversary of the birth of Washington Irving was appropriately celebrated at Tarrytown, N. Y., on Tuesday.

Jordan, Marsh & Co., for thirty years the largest dry goods jobbing concern in Boston, will retire from the wholesale business on the 15th instant.

It has been definitely decided that neither Parnell nor any other member of the Irish parliamentary party will attend the Convention at Philadelphia.

John A. Wilson, wife and two daughters were burned to death in their house, three miles from Hartwick, Otsego county, N. Y., early yesterday morning.

The remains of Prof. Palmer, murdered with his companions by Bedouins in November last, near Cairo, were buried yesterday in Saint Paul's Cathedral, London.

The weekly statement of the Bank of England shows an excess of bullion amounting to £378,000. The proportion of bank reserve to its liabilities is 34 5-16 per cent.

At Fort Worth, Texas, Paul Hill, 17 years old, outraged a 6-year-old daughter of one McDaniel. He was captured and lodged in jail. The girl's life is despaired of.

Brigadier-General Joseph K. Barnes, the retired late Surgeon-General of the United States army, died at his residence in Washington yesterday morning, of Bright's disease.

George W. Davids, who killed himself in New York, was acting Treasurer of the Board of Education in New Rochelle, N. Y., and had in his custody $30,000 of the town funds.

Betting on the city and suburban handicap at London is eleven to one against Keene's Foxhall, twenty to one against Lorillard's Sachem, and twenty-two to one against Passaic.

A St. Petersburg dispatch says: The local Chief of Police and all others who contributed to the comfort of the crews of the Jeannette and Rodgers have been decorated by the Czar.

In the British House of Commons Jacob Bright introduced a resolution, which was adopted, against any power exercising dominion or privileges in the Congo country to the exclusion of others.

Over 200 of the most prominent Knights Templar of Iowa have already announced their intention of going to California, accompanied by their ladies. Secretary Perrin has gone to San Francisco to secure dormitories.

The German Government will justify the arrest of the Deputies of the Reichstag, pending the session of that body, by declaring that the men arrested were under suspicion of having brought contraband writings into Germany.

President Arthur, Secretary Chandler and Senator Miller, of New York, left Washington yesterday morning for Jacksonville, Fla. Representatives of the Chicago *Tribune*, New York *Sun* and New York *Times* accompanied the party.

It is estimated that the labor bill which has passed the Wisconsin Legislature, imposing a fine and imprisonment in case of the employment of children under 14 years of age, will throw nearly 3,000 out of employment in Milwaukee.

Dawson, Lord Mayor of Dublin, is forming a national committee to raise a fund to present to Parnell. The committee is composed of Bishops, priests, members of Parliament, Mayors and other officials. The fund now reaches £800.

General George W. Morgan Wednesday night fell down stairs at Mt. Vernon, breaking an arm and receiving internal injuries from which he died. In the gold fever of 1849 his father left for California to seek his fortune in the mines, and was never afterwards heard of.

Severe and continuous rioting has taken place along the line of the canal works, in Panama, originating in race hatred between Jamaicans and Carthagenians. Some twenty of the former have been massacred, and the Government finds itself unable to restore order.

A St. Petersburg dispatch says that the coronation of the Czar at Moscow, represented as having been set for April, or May at the latest, may now be put off until June. One thing is certain—the date has now been left blank in the invitations forwarded to foreign Powers.

Developments of the utmost importance are expected in connection with the forthcoming great trial of Nihilists in St. Petersburg. It was originally believed that this trial would be the last of its kind on the list. The recent arrests, however, have made other Nihilists' trials possible.

Consul Francis, of Victoria, B. C., reports to the State Department that the twenty salmon canneries of that province aggregated for the season of 1882 235,000 cases, valued at $5 per case, or a total valuation of $1,175,000. Over nine thousand cases were sent to Canada and Australia, via San Francisco.

A special from Moscow, Russia, states that a large mine has been discovered, connecting with the Kremlin, where the coronation of the Czar is to take place. The telegram also states that a request has been issued at St. Petersburg for 100 sappers, to be sent at once to Moscow for the purpose of destroying the mine.

United States Consul Wilson, at Nantes, in a letter to the State Department at Washington, strongly intimates that the representations made to the French Ministers of Agriculture and Commerce by the French pork dealers, rather than any objection to the quality of American pork, caused the issuance of a decree of prohibition.

Simon Phillippart, the famous speculator, was arrested at Paris upon representations made by the Belgian Public Prosecutor. The charge against him is that he falsified accounts at his bank. The Prosecutor is instructed by his Government to demand that Phillippart be handed over to the Belgian authorities to be dealt with according to the laws of that State.

Victor Gully, of London, notorious in connection with the Bravo case, is dead. Chas. De Launcy Turner, Bravo's barrister, died suddenly and mysteriously at Batham, Surrey, in April, 1876. Suicide was first suspected, but the verdict of the jury was willful murder, caused by the administration of tartar emetic, but there was not sufficient evidence to fix the guilt upon any one.

It is stated that the Governments of Italy and Austria have given their assent and affixed their signatures to a treaty by the terms of which each Empire guarantees to the other complete integrity of territory. Although Germany has not become directly and signaturally a party to the treaty, the document contains a clause in which it is mentioned that her approval has been given.

## SAN FRANCISCO ITEMS.

The annual vacation of the School Department will be held in June, as usual.

The Harbor Commissioners will make no further appointments until next Tuesday.

The Triennial Conclave Committee reports plenty of accommodation for the visiting Knights Templar.

The funeral of engineer Ross, who was killed from the effects of the explosion at the Palace Hotel, takes place on Sunday.

The case of Assistant Secretary O'Brien of the Harbor Commission has been continued to Tuesday by consent. He is still in custody in default of bail.

At 2 P. M. Thursday the Baldwin jury came into Court, and asked that the testimony of Dr. May be again read. A half an hour later the jury found a verdict of "Not guilty, by reason of insanity at the time of the commission of the act." Miss Baldwin, at the reading of the verdict, half arose, cried convulsively, and resumed her seat, only to receive the congratulations of her attorneys and several lady friends who were present.

## BRIEF NOTES.

Eighty-one emigrant passengers will arrive this afternoon.

A floral social will be held this evening at the Sixth-street Methodist Episcopal Church.

Rain was reported again last evening by the Signal Service observers at Visalia and San Diego.

This evening "King Alfred," an operetta, will be given at Mrs. Perry's Seminary by members of the class.

At the regular meeting this evening at the Jewish Synagogue, Rev. Dr. Bloch will speak on the life of the late Peter Cooper.

The annual excursion and picnic of Sacramento Stamm, U. O. R. M., will take place Sunday, April 29th, at Natoma Grove, Folsom.

There was but a single case in the Police Court yesterday—James Edge, who pleaded guilty to a charge of disturbing the peace. Judgment will be pronounced this morning.

Yesterday morning it was found that ten sacks of potatoes belonging to Mebius & Co. had been stolen from the basement of a place at Fifth and I streets, occupied by Fong Lee.

To-day, at 10:30 A. M., the east 40 feet of lot 4, in block bounded by G, H, Thirteenth and Fourteenth streets, will be sold—D. J. Simmons, auctioneer—on the premises, by order of the heirs of John Welsh, deceased.

Detective Bainbridge came up from San Francisco yesterday and obtained a requisition for Gray, the absconding Harbor Commission Secretary, who has been arrested in Guaymas, Mexico. Captain Lees and detective John Coffey will leave this morning by rail for Guaymas.

## SOCIAL AND PERSONAL.

Senator Reddy, of Mon[illegible] was in the city yesterday.

Wm. J. Davis came home from Shasta county yesterday.

Mrs. James Lansing returned yesterday from a trip to Portland, Or.

Mrs. Elrstein and daughter, and Mrs. Dahlman, of this city, went East last evening.

Miss Ida Myers left yesterday for Portland, Oregon, on a visit to her brother, F. D. Myers.

Charles Boscowich and Richard Dwyer, of San Francisco, went through last evening to Montana.

Colonel Creed Haymond came down yesterday from Red Bluff, and went to the Bay in the afternoon.

Wyatt Earp, one of the notorious Earp brothers of Arizona, went through the city last evening, en route to Utah.

J. N. Young, who was a representative to the Grand Lodge, A. O. U. W., returned from San Francisco last evening.

Marks, merchandise, $4 50; Friend & Terry Lumber Company, lumber for District No. 14, $63 60; D. Dierssen, merchandise, $21 30; A. C. Tufts, medicine for dispensary, $47 23; Huntington, Hopkins & Co., merchandise for Hospital, $47 35; S. Dwyer, merchandise for Hospital, $111 71; H. Winters, merchandise for Hospital, $141 53; A. Schader, merchandise for Hospital, $12 66; G. Kuchler, merchandise for Hospital, $106 90; J. Gerber & Bro., merchandise for Hospital, $309 60; George Schroth & Co., merchandise for Hospital, $25 52.

The claims of the Deputy Assessors were reduced in total from $982 to $889 69—a reduction of $83 31. Some claims for stenographic reporting were rejected, and a number of other demands were held over for investigation. The warrants for the claims allowed can be obtained from the Auditor tomorrow morning.

METROPOLITAN THEATER.—Minnie Maddern, supported by her own company, will appear to-night at the Metropolitan Theater in the comedy drama entitled, "Fogg's Ferry." This piece has been very successful throughout the Eastern States, and had a very long run at the Park Theater, New York. The company are direct from the East, bringing their own scenery, stage effects, etc., and are on their way to the Bush-street Theater, San Francisco, where they begin an engagement on Monday next. Miss Maddern is of the Lotta class of actresses, and but 18 years of age. In this piece she appears as Chip. The play is of the comedy dramatic order, illustrating the eastern idea of western pathos, humor and adventure. There was a large sale of reserved seats at the theater yesterday. The same piece will be presented to-morrow afternoon and evening.

PICNIC OF ETHAM LODGE.—At a meeting of Etham Lodge, No. 37, I. O. B. B., held last evening, it was decided to hold a picnic in May, the proceeds to be donated to the Sabath-school of the Congregation B'nai Israel. The following named were appointed a committee to make all arrangements for the same: Samuel Dombrower, Aaron Nathan, Rev. J. Bloch, Albert Elkus, Amil Steinman, D. J. Simmons.

INTERRED.—The remains of the late Samuel Jelly have been removed from the vault to a family lot in the Crocker addition, on the west side of the cemetery, and also the remains of the late Mrs. Jelly to the same place.

PLACED IN STOCK TO-DAY.—Eight cases men's French calf, sewed shoes, to sell at $3 50 a pair; also 12 cases brogans at $1 25 a pair. Boot and Shoe Department, Red House. *

JOB LOT of summer cloaks, $1 50 (one-fourth their value); large-size knit Shetland shawls, 95 cents, at Red House. *

BONE BUTTONS, 5 cents per dozen; pins, 4 cents per package; hat elastic, two yards for 5 cents, at Red House. *

A GENTLEMAN'S stylish summer suit for $6 50, at the Red House. *

## HORTICULTURAL BOARD.

### AN ORGANIZED BODY SOMEWHAT DISORGANIZED.

Choosing Officers—A Warm Time—The Qualifications of Pest Inspector.

Six of the nine members of the new State Board of Horticulture met yesterday at the Capital Hotel, in accordance to a notice sent by William M. Boggs, member from Napa. Those present were Felix Gillet, Nevada; Dr. S. F. Chapin, San Jose; A. F. Coronel, Los Angeles; H. C. Wilson, Red Bluff; Mariano G. Vallejo, of Sonoma; and William M. Boggs, of Napa. The absent members were Mr. Cooper, of Santa Barbara, who was appointed last Friday and could not have received his commission in time to have reached Sacramento by yesterday; member from San Joaquin, Mr. West, resigned; Mr. Kimball, of Alameda, Commissioner at large.

ON ASSEMBLING

Mr. Boggs was elected temporary Chairman, and Gillet temporary Secretary.

Mr. Gillet deemed it improper to proceed to a permanent organization until the Board was full, especially as Mr. Cooper had not had time to reach Sacramento after his appointment was made and mailed.

Dr. Chapin took the same view.

Mr. Boggs opposed postponement, as it might be difficult to get as many together again.

Mr. Gillet reiterated the injustice to Mr. Cooper and the Board to proceed without all present, and thought it unwise to have the meeting called so soon, and didn't know who was responsible for its being done.

Mr. Boggs said that at the suggestion of the Governor and his Secretary he had sent the notices for the meeting.

Further discussion followed, in which Messrs. Chapin and Gillet again held that the call had been made with too great haste.

MR. BOGGS

Was then elected permanent President of the Board. Mr. Boggs returned thanks, and in his remarks as to his qualifications for office, disclosed to the members that he was laboring under the impression that he had already been elected "Inspector of Fruit Pests."

Dr. Chapin suggested that the election was for President and not Inspector.

Mr. Wilson said he thought the election was for Inspector, but to set it right he would nominate Mr. Boggs for Inspector.

At this point Mr. Boggs received and read from Director Elwood Cooper a dispatch stating his inability to be present.

Dr. Chapin objected to electing Inspector until the other officers of the Board had been chosen.

Dr. Chapin was elected Vice-President; General Vallejo, Treasurer. For Secretary, the applicants were A. H. Webb, Oakland, recommended by many indorsers, among whom on the list was Governor Stoneman; Joseph R. Young, of Yuba; A. Drahms, of Martinez; W. A. Pryal, of North Temescal, and R. D. Hopkins, of San Francisco. Mr. Webb was elected on the first ballot by 5, to 1 for Mr. Drahms.

The members then by lot determined the long and short terms, the Secretary drawing for the unrepresented districts. The result was: Long terms (four years)—Dr. Chapin, Mr. Cooper, No. 6, which is a vacant district, and Mr. Kimball. Short terms (two years)—Messrs. Coronel, Boggs, Gillet, Vallejo and Wilson.

Mr. Gillet again moved to postpone the election of Inspector, and Dr. Chapin seconded it.

Mr. Boggs was very much opposed to postponement, and urgently pressed for immediate action.

Mr. Wilson nominated Mr. Boggs.

Mr. Gillet nominated the present incumbent, Matthew Cooke. He referred to the

REQUIREMENT OF THE LAW,

That that officer must be especially qualified by practical experience in horticulture, and referred to his unusual qualifications and his eminent fitness for the place, and his years of service in horticultural interests and in the extermination of fruit pests, and said he was eminefitly the right man in the right place.

Mr. Boggs, in his own behalf, presented a recommendation of himself for the position signed by most, if not all, of the Democratic members of the Senate, by Governor Stoneman and a portion of the State officers, and some other prominent Democrats of the State and also by Hon. M. M. Estee.

THE ELECTION.

A ballot was then had, with this result:

For Boggs—Boggs, Coronel, Vallejo, Wilson—4. For Cooke—Gillet—1. Not voting Chapin—1.

Mr. Boggs, having four votes, asked Dr. Chapin to declare the result, as he did not wish to declare himself elected.

Dr. Chapin took the chair, and decided it required a majority vote of all the members of the Board to elect, and held, therefore, that there was no election, as it required five votes to elect, there being nine in the Board, and he ordered a new ballot.

Mr. Boggs resumed the chair and a new ballot was had, with the same result; the same persons voting as above recorded.

DECLARING A RESULT,

On counting the ballot, Mr. Boggs said the result was the same, and asked what should be done?

Dr. Chapin moved to adjourn for two weeks, to meet in San Francisco, to elect an Inspector of Fruit Pests.

Some time was taken in discussing the time to which to adjourn, when Mr. Boggs said he had been thinking over the matter of the last vote, had reconsidered, and had come to the conclusion that he had been elected. Thereupon Mr. Boggs decided that Mr. Boggs was elected, and this he did on the theory that while it took a majority of the Board to form a quorum, it only took a majority of the quorum to elect. He thereupon called on Dr. Chapin under this decision to announce the ballot.

Mr. Coronel thought Mr. Boggs was wrong in his ruling, and Mr. Gillet did not feel certain on that point, but inclined to think Mr. Boggs right.

Mr. Boggs again asked Dr. Chapin to announce the decision, and Dr. Chapin did so, saying, "That as Mr. Boggs had received four votes, he was, under the opinion expressed by the Chair, elected Inspector of Fruit Pests."

San Francisco was then declared the headquarters for the Board, Mr. Gillet urging that the State Capital was the proper place. The regular meetings were fixed for the last Thursday before the last Friday of January, April, July and October of each year, as the Viticultural Board meets on the days next succeeding the days above named, and so as to enable members to attend on each Board.

The salary of Inspector Boggs was fixed at $150 per month, and of Secretary Webb at $75 per month.

The Treasurer was authorized to draw from the State Treasury $2,000 for the uses of the Board.

Mr. Boggs suggested the propriety of paying the salaries of the Inspector and Secretary in advance for the first three months, and asked Dr. Chapin what he thought of it, and the doctor replied he thought it improper, and asked what sort of a fix the Board would be in if those officers should die or the offices become vacant before the expiration of that time? He thought in that event the Board members would have to go down into their pockets and make it up. Mr. Webb agreed with Dr. Chapin.

The Board decided, on motion of Dr. Chapin, to pay the salaries only after they were earned—*i. e.*, at the close of each month.

The Board then adjourned to 7:30 P. M., to give the Treasurer time to prepare his bond.

EVENING SESSION.

On reassembling, Secretary Webb said the Treasurer's bond was not ready, as the blanks were in the office of the Secretary of State, which was closed.

Dr. Chapin said he spoke now with reluctance. He thought the Board had not acted wisely in choosing its Inspector. It was not the appointment that should be made. The office required special qualifications. The law requires that the Inspector "shall be specially qualified by practical experience in horticulture for the duties of his office." In view of the peculiar condition of horticulture in California, the great interests involved, in view of the past and all that had been done, he felt, notwithstanding his respect for Mr. Boggs, that he was not qualified in that direction. He felt it to be his duty to so state, and believed and felt that his election would

RESULT DISASTROUSLY

To the fruit interests of the State. Millions of dollars, he said, are involved, and the State could not afford to take the risk of putting in any but the best man possible to be had. He said he had been told in San Francisco within forty-eight hours that Mr. Boggs said, only night before last, that the insect pests would disappear without any action on the part of the Commission. Such advice as that cannot be given with safety to the horticulturists of the State, and allow them to repose faith in it. If so, their orchards will be destroyed. In former years Mr. Boggs had had some experience in horticulture, but none, on his own admission, since the advent of the "bugs," and hence he was not fitted for this office. He continued at length in like remarks, and said frankly to the Board, that after considering the whole matter and the responsibility resting on the Board through this choice of Inspector, he and Mr. Gillet, after the afternoon session, had gone to Governor Stoneman and tendered their resignations from the Board. They gave the Governor their reasons, and his Excellency was pained at their tender and urged them not to resign; that he had appointed those who had been recommended, and with a view of fostering the fruit interests to the fullest. He urged them to remain on the Board, in the hope of rectifying matters, so as to remove their apprehensions as to danger to horticultural interests. Dr. Chapin thought no political considerations should govern the action of the Board. He said the difficulty had been that the Board had come together with the matter all cut and dried. He added that no opportunity had been afforded to make any different selection or change the course of pre-resolved election.

Mr. Wilson warmly denied that there was anything cut and dried in the matter, and resented the intimation that he would do anything from a political standpoint, or take any action not for the best interests of the State.

MR. BOGGS

Denied that he had said the insect pests would disappear in two years without action by the Commission. On the contrary, had always held that they would increase if not checked, and ruin the fruit interests if not overcome in their ravages. He warmly defended his ability to fill the office, and said that while he had not given any attention to horticulture for twelve years past, and never any to the insect pests, that he had since 1845 owned at various times several farms at various places, and on each of them he had set out more or less fruit trees and grape vines, and learned to bud trees when he was a boy. He made in his statement no reference whatever to knowledge of entomology or the science of microscopy, or knowledge of the natural history of the "pests," etc., all of which is deemed necessary for an "Inspector."

Dr. Chapin said he'd like to have Mr. Boggs state what experiments he had tried for the extermination of insect pests, and what would be the best remedies.

Mr. Boggs replied that for the past ten years he had been engaged in realestate business, and therefore could not give any particular information on that subject, and that there might be a great difference of opinion.

Dr. Chapin desired to inform Mr. Boggs that within two or three years a great deal had been done in experimenting in this field by Chief Executive Horticultural Officer Cooke and others, and many effective remedies had been found and applied with marked success.

WHO ARE THEY?

Mr. Boggs said "*if there were such persons*" they could come before the Board and tell what they knew about it, and he "*was willing to learn*," and "their statements could be printed in circulars and furnished *as information* to the fruit-growers of the State."

A QUESTION.

Dr. Chapin asked if it was proper to elect one as Inspector who had no knowledge of the subject and must receive information from others, and that such a person be sent out by the Board to take the lead in protecting this great and all-important interest of the State.

DISCLAIMER AND CHERRIES.

Mr. Boggs disclaimed not knowing anything of horticulture for twelve years past, and said he had lived in one of the best fruit sections of the State.

Dr. Chapin—"Yes, for grapes."

Mr. Boggs—"We raise cherries and some other kinds of fruit, also, as well as grapes." If the Board had waited until he had been tried for a time, to test his competency, he would have resigned if it was found he was not fully capable; that no more competent man had been proposed, and until such an one was found he proposed to hold to the office.

Mr. Wilson asked Dr. Chapin if he had a candidate?

Dr. Chapin—"No special one. I want to see the best man possible elected."

Mr. Wilson—"Who was a competent man?"

Dr. Chapin replied that Matthew Cooke had proved himself highly qualified. But he was not speaking specially for him. He, Chapin and Gillet and other members of the old Board had spent hundreds of dollars and much time on this matter of saving the orchards, and did not wish to see all that had been accomplished thrown away by the ill-advised action of the Board.

Mr. Gillet, being asked why Mr. Cooke had not been nominated, replied that he had been placed in nomination and he had voted for him.

Mr. Wilson asked Dr. Chapin why he had not voted for Mr. Cooke.

Dr. Chapin replied, because it was evident that Mr. Boggs was to be elected, and he (Boggs) was unwilling for any postponement. He (Chapin) was satisfied that all Mr. Boggs was after was the $150 a month, and that he had no special deeper interest in the subject.

A warm debate in this line continued for some time, but without anger. During the debate Mr. Boggs, referring to Mr. Cooke, said he wanted to state that during the session of the Legislature, while he was looking after the interests of the bill, he found it was in charge of Senator Cox, who told him that whatever Mr. Cooke said would be considered, as he had "had more experience than all of us put together." He (Bogge) then went out

TO FIND COOKE,

And at last found out that the man he wanted to see was the proprietor of a box factory. When he finally found out who and where he was and met him, and had asked him what he (Cooke) wanted, Cooke had replied that he wanted the office he had had, so as to have it at his factory, as he had $40,000 invested in the box factory. A Mr. Lusk was present and heard the conversation.

Mr. Wilson said that whether Mr. Boggs was or was not the best man, he was elected Inspector, and it was the duty of the Board to furnish him all the information possible, and assist him in making a success in office.

NOT A SCHOOL.

Dr. Chapin read the law, to show that the Inspector should be specially qualified when appointed, and was not to be elected to learn after appointment. He urged this view on the Board, and his remarks were supplemented by those of Mr. Gillet, who compared the well known and everywhere admitted experience and skill of Mr. Cooke with the inexperience and want of knowledge of Mr. Boggs.

Mr. Boggs said he could read and inform himself on this subject as well as any one else, and if Mr. Cooke had any valuable knowledge *he would "be pleased to have him come to him and state it, and he would have it taken down—that could very easily be done."*

At this point President Boggs stated very firmly that the discussion as to his ability to fill the office was entirely out of order, and would not be allowed to be continued.

Mr. Gillet moved a reconsideration of the vote by which Mr. Boggs was elected Inspector.

The Chair decided the motion out of order, and a warm debate ensued, and a vote being had the motion was lost.

General Vallejo said he had only taken the place he held for the best interests of the State, and he was satisfied that the Board wanted no book man, but one of experience, who had worked on the ground. He related his experience with a university professor on the subject of horticulture—a great book man, but a greenhorn in experience.

After some further unimportant debate the Board adjourned until 10 A. M. to-day.

A FLAT DENIAL.

After the adjournment of the Board last evening a representative of the RECORD-UNION called on Matthew Cooke and asked him what he had to say to the charge made by Mr. Boggs. Mr. Cooke replied that it was unqualifiedly untrue in every word and syllable. He referred to the fact that he was so much more out of pocket when in the office than the meager salary brought him that he resigned the office in self-defense of his home affairs, his duties calling him away to various parts of the State. By earnest solicitation of many horticulturists and the Governor, he had consented to serve on until the Legislature met. That ought to be sufficient to show he had not said what Mr. Boggs charged. He had not run after the office, and had asked no man to vote for or nominate him. He worked years alone, he said, to study the pest question and enable horticulturists to avail of all facts discoverable concerning them by microscope, tests, remedies, and other experiences, and had paid out far more than he ever received the subsequent two years in office, and paid out all his salary too in that time in expenses. He had been called on by Boggs, whom he had never before heard of, toward the close of the late Legislature, after he (Cooke) had appeared before the committees, and given the houses all the information desired, by special request of the State Board, and the new bill had been agreed on. Boggs had come, and said Senator Cox sent him, and he then told Mr. Boggs he wanted nothing, and if Senator Cox wanted to see him to tell him he was at home. Any remark he made about his factory and its value Mr. Boggs must have misapprehended, for he certainly never said or thought what is charged.

A LARGE invoice of notions opened to-day and placed in stock at No. 716, consisting of smokers' articles—pipes, cigar holders, match boxes. Also razors, the celebrated Lamont strop, glass cutters, combs and brushes, and a splendid assortment of gents' pocket knives. Call at the Furnishing Goods Department, Red House. *

PLUSH LAP ROBES, $3 50; window shades, with complete fixtures, 50 cents, at Red House. *

### THE CONTESTED ELECTION.

Yesterday afternoon the hearing of the contested election case of Knox vs. Neilsen, which is a contest for the position of Second Trustee of this city, was commenced in the Superior Court before Judge McFarland. Charles T. Jones and Ed. M. Martin appeared as counsel for Mr. Knox, and Grove L. Johnson for Mr. Neilsen. The official canvass by the Board of City Trustees gave Neilsen a majority of twelve votes.

The ballots were brought to the Court-room by Auditor McKee. With but little preliminary argument by counsel, two tally clerks—Wm. Miner and J. Brown—were appointed and sworn, and Auditor McKee was put upon the witness-stand. He testified to receiving the returns from the First Precinct, and said they had been in his custody ever since, and that the box was opened by the Board of City Trustees for the purpose of canvassing the returns. The witness answered many questions in regard to where the keys to the vault in which the returns were put have been since the election; the number of windows in the room of his office over the water works; whether a light was kept in his office all night, etc., after which the box was opened, and the contents found to be in the same condition as they were when the Board of Trustees finished the canvass, but the ballots were loose on a string and not in an envelope.

Thos. Fox, one of the Judges of Election in Precinct No. 1, was called and sworn, and said the ballots were not put in an envelope because the only envelope they had was accidentally destroyed.

The ballots were then offered in evidence and objected to by Neilsen's counsel on several grounds, among them being that the ballots were not in the shape prescribed by law. It was agreed that the objections should be taken under advisement by the Court, and if necessary should be argued at the close of the recount.

The counting of the ballots was then commenced. Besides the two tally clerks previously appointed, Wm. J. Davis as official reporter kept a tally, and the Court instructed Clerk Hamilton to do the same. Several outsiders also kept tallies. The count resulted as follows: Knox, 340; Neilsen, 280; Cross, 5; Churchman, 2; blanks, 5; total, 632. This agrees exactly with the official canvass.

Precinct 2 was then taken up and counted after the examination of Auditor McKee and other witnesses. There was no testimony given to show that the returns were not in practically the same condition as when they were delivered to the Auditor. The count resulted as follows: Knox, 135; Neilsen, 161; Cross, 2; Churchman, 1; blank, 2; total, 302. In this precinct Knox lost one vote and Neilsen gained one, which leaves Neilsen with a majority of 14.

This finished the work of yesterday. After considerable discussion as to what should be done with the ballots over night, it was finally decided by the Court, as counsel could not agree as to a disposition of them, that they should be returned to Mr. McKee, who is their legal custodian. The Court then adjourned until 10 o'clock this morning, when the counting will be resumed.

A SURPRISE.—Last evening the members of Company G met at Armory Hall, and, headed by the First Artillery band, marched to the residence of Maurice H. Sheehan, on G street, near Twelfth, and proceeded to serenade their Lieutenant and his bride. The entire party was invited into the house and very cordially received. They took with them some very handsome presents, and a neat presentation speech was made by H. W. Rivett. It was appropriately responded to by the host. The party then began to enjoy themselves to their utmost. Refreshments were served, and it was after midnight when they dispersed. Several officers of the regiment and the brigade were present.

A SERIOUS MISTAKE.—Yesterday morning R. D. Scrivar, just before sitting down to the table, went to take some medicine, which he has been accustomed to take lately, and by mistake got an exactly similar bottle containing aqua ammonia. The medicine which he had been taking was very nauseous, and as is usual on such occasions, he "braced" himself and took a big swallow. A physician was summoned as soon as one could be found, but before he arrived Mr. Scriver's throat was swollen so that he could swallow nothing. He had himself taken a quantity of olive oil as an antidote, and last evening the physician did not appear to think the case would result seriously.

GENTS' French cheviot shirts, extra collars and cuffs, new patterns, only $1 25, at the Red House.

**CARBOLINE**

*A Deodorized Extract of Petroleum.*

**THE ONLY ARTICLE**

—THAT WILL—

**Restore Hair on Bald Heads**

WHAT THE WORLD HAS BEEN WANTING FOR CENTURIES.

OF ALL THE COMPOUNDS WHICH THE Chemists' art have given to the world for hundreds of years for the purpose of restoring the hair to its natural growth and color not one has been perfect. Many of the hair-dressings of the day are excellent, but the great mass of the stuffs sold for promoting the growth and bringing back the original color are mere humbugs, while not a few are positively pernicious in their effects upon the scalp and the structure of the hair. All hair-dyes are well-known to Chemists as more or less poisonous, because the change in color is artificial, and does not depend upon a restoration of the functions of the scalp to their natural health and vigor. The falling out of the hair, the accumulations of dandruff and the premature change in color are all evidences of a diseased condition of the scalp and the glands which nourish the hair. To arrest these causes the article used must possess medical as well as chemical virtues, and the change must begin under the scalp to be of permanent and lasting benefit. Such an article has been discovered, and, like many other wonderful discoveries, it is found to consist of elements almost in their natural state. Petroleum oil is the article which is made to work such extraordinary results; but it is after the best refined article has been chemically treated and completely deodorized that it is in proper condition for the toilet, and receives the name of Carboline. It was in far-off Russia that the effects of petroleum upon the hair were first observed, a Government officer having noticed that a partially bald-headed servant of his, when trimming the lamps, had a habit of wiping his oil-besmeared hands in his scanty locks, and the result was, in a few months, a much finer head of black, glossy hair than he ever had before. The oil was tried on horses and cattle that had lost their hair from the cattle plague, and the results were as rapid as they were marvelous. The manes and tails of horses, which had fallen out, were completely restored in a few weeks. These experiments were heralded to the world, but the knowledge was practically useless to the prematurely bald and gray, as no one in civilized society could tolerate the use of refined petroleum as a dressing for the hair. But the skill of one of our chemists has overcome the difficulty, and by a process known only to himself, he has, after very elaborate and costly experiments, succeeded in perfecting Carboline, which renders it susceptible of being handled as daintily as the famous Eau de Cologne. The experiments with the deodorized liquid, on the human hair and skin, were attended with the most astonishing results. A few applications, where the hair was thin and falling, gave remarkable tone and vigor to the scalp and the hair. Every particle of dandruff disappears on the first or second dressing, all cutaneous diseases of the skin and scalp are rapidly and permanently healed, and the hair, so searching in its nature, seems to penetrate to the roots of the hair at once and set up a radical change from the start. It is well known that the most beautiful colors are made from petroleum, and by some mysterious operation of nature the use of this article gradually imparts a beautiful light-brown color to the hair, which by continuous use deepens to a black. The color remains permanent for an indefinite length of time, and the change is so gradual that the most intimate friends can scarcely detect its progress. In a word, it is the most wonderful discovery of the age, and well calculated to make the prematurely bald and gray rejoice. We advise our readers to give it a trial, feeling satisfied that one application will convince them of its wonderful results.—[Pittsburg Commercial of October 22, 1877.

The article is telling its own story in the hands of thousands who are using it with most gratifying and encouraging results.

MR. GUSTAVUS E. HALL, of the Oates Opera Troupe, writes: "After six weeks' use, I am convinced that your CARBOLINE has and is producing a wonderful growth of hair where I had none for years."

Your CARBOLINE restored my hair after everything else had failed. I consider it the best thing out for the purpose intended.—[B. F. Arthur, Chemist, Holyoke, Mass.

**Carboline** Gives the utmost satisfaction as a Hair Renewer.

**Carboline** Is free from irritating and poisonous chemicals.

**Carboline** Is the natural nourishment for the hair.

**Carboline** Has been indorsed by the highest medical authority.

**Carboline** Gives weak and sickly hair the gloss and vigor of youth.

**Carboline** Keeps the hair moist and the head cool.

**Carboline** Delightful, fragrant and sure all the time.

**CARBOLINE**

Is now presented to the public without fear of contradiction, as the best restorative and beautifier of the hair that the world has ever produced.

Price, One Dollar Per Bottle.

SOLD BY ALL DRUGGISTS.

**BLACK DIAMOND COAL**

**AND SCREENINGS.**

THE ABOVE WELL KNOWN SUPERIOR Monte Diablo coal, the most economical that can be used for steam, is for sale in lots to suit, at Black Diamond Landing, Contra Costa county, and at the office of the Company, southeast corner of Folsom and Spear streets, San Francisco.

P. B. CORNWALL, President B. D. C. M. Co.

## THIS AND THAT.

**Things in the Bottom Drawer.**

There are whips and tops and pieces of strings,
There are shoes which no little feet wear;
There are bits of ribbon and broken rings,
And tresses of golden hair;
There are little dresses folded away
Out of the light of the sunny day.

There are dainty jackets that never are worn,
There are toys and models of ships;
There are books and pictures all faded and torn,
And marked by the finger tips
Of dimpled hands that have fallen to dust,
Yet I strive to think that the Lord is just.

But a feeling of bitterness fills my soul
Sometimes when I try to pray,
That the Reaper has spared so many flowers
And taken mine away;
And I almost doubt that the Lord can know
That a mother's heart can love them so.

Then I think of the weary ones
Who are waiting and watching to night,
For the slow return of the faltering feet
That have strayed from the path of right,
Who have darkened their lives by shame and sin,
Whom the snares of the tempter have gathered in.

They wander far in distant climes,
They perish by fire and flood,
And their hands are black with the direst crimes
That kindled the wrath of God.
Yet a mother's song has soothed them to rest,
She hath lulled them to slumber upon her breast.

And then I think of my children three,
And my babes that never grow old,
And know they are waiting and watching for me,
In the city with streets of gold.
Safe, safe from the cares of the weary years,
From sorrow and sin and war.
And I thank my God with falling tears
For the things in the bottom drawer.

Prof. Helmholtz has been raised to noble rank by the Emperor of Germany.

Never despise humble services; when large ships run aground, little boats may pull them off.

The woman who is interviewed by a sewing machine salesman suffers more or less from sewer gas.

"Should a woman whistle?" asks *Harper's Bazar*. Well, we should toot.—[Burlington Hawkeye.

Pere Hyacinthe and wife intend visiting the United States next summer, when he will lecture in some of the principal cities.

Kate Field is said to have declined many flattering matrimonial offers. But a woman can't keep up that practice forever. She won't have the chance.

The one doctrine in which all religions agree is, that new light is added to the mind in proportion as it uses that which it has.—[R. W. Emerson.

A new industry in Japan is said to be that of lacquering plaster so as to resemble marble. On a basis of clay this lacquer work is especially novel and effective.

The Boston *Herald* is jealous of Wiggins' fame, and now predicts a hot spell next August, and advises the fishermen to lay in a supply of ice for the occasion.

The Rev. C. H. Parkhurst, D. D., thinks that the club, as ordinarily constituted, is a device of the devil for undermining the stability of the home, chilling its temperature and breaking its power.

Mississippi has 1,479 manufacturing establishments, with a capital of $4,727,000, giving a value of products of $7,518,302. South Carolina has 2,078 manufactories, and a capital invested of $1,205,894. Value of products, $16,738,008.

A small hydrogen gas balloon, with a capacity of about two gallons, was liberated at Berey and made its way to Gradno, in Poland, having traveled more than 2,000 miles. This is the longest air journey on record for so small an object.

At Sebastopol a new Government dock has just been commenced. It will take the place of the one which was destroyed during the famous siege by the allied armies more than 25 years ago. It will require three years to complete it, and the estimated cost is $20,000,000.

An automatic electric mechanism that is designed to announce the approach of railroad trains has been tried on what is called the Paris-Lyon-Mediterranean line. It consists of a box filled with mercury placed under the rail at the required distance from a bell. When a train passes over this box the mercury is so agitated as to form contact with the wire communicating with the bell, and thus make it ring.

*Les Mondes* reports that M. Dufourcet has, in the exposed court of his house, two bars of iron planted in the earth, to each of which is fixed a conductor of coated wire, terminating in a telephonic receiver. He consults the apparatus twice or thrice every day, and it never fails through its indications of earth currents to give notice of the approach of a storm twelve to fifteen hours before it actually occurs.

As a feature of the proposed commemoration of the four hundredth anniversary of the birth of Martin Luther, it is proposed to restore the old Castle Church, at Wittenberg, upon whose doors the theses against indulgences were nailed in 1517. The building is in a state of general decay and neglect. Its stone towers have been pierced for cannon to fit it for use as a fortress, but they have no belfries or bells to call the people to worship God.

A "seeker after knowledge" sends the following question to a Rochester paper all the way from Illinois: "Would it be proper to say 'the hog is his,' or 'the hog is hisen?'" "Tastes differ widely regarding matters of this kind," is the answer, "and what might suit New York State would never do for Illinois. We think 'the hog is hisen' would be the proper expression for you to use."—[Exchange. Yes, that would be all right unless he was in the neighborhood of Cincinnati.

A few days since the rails were laid on the summit of the Bozeman Pass. The altitude is 5,715 feet, the highest point reached by the Northern Pacific Railroad survey in the entire course of the road. For the distance of eight miles before the summit is reached an engine or car will not remain stationary unless brakes are applied. The highest altitude reached upon the Central Pacific Railroad in the Sierra Nevadas is 7,042 feet, at Summit Station, while the Union Pacific reaches an altitude of 8 242 feet at Sherman, in the Rocky mountains.

A most remarkable electrical phenomenon manifested itself on the line of the Union Pacific Railway recently, between North Platte and Sidney. The influence, however, was felt perceptibly beyond those points. The rails were surcharged with a current of electricity, moving from west to east to so high a degree that hand-cars standing on the track were impelled at a fair rate of speed by it. One hand-car at Brule got away from the section men next east The influence of the current was felt by many persons along the track, and no little excitement prevailed during its continuance.

A traveler in the Holy Land noticed a woman, heavily laden with domestic utensils, toiling up a high hill, while her husband, selfish, proud, lazy and useless as an American Indian, rode by her side on a donkey comparatively free from burdens. The traveler stepped up, moved by pity for the poor woman, and asked the man why he didn't relieve her and put some of the implements on the donkey's back. The man coolly informed him that he didn't have to pay anything for a wife, while a donkey cost him 20 francs.—[Chicago Herald.

Holy Week ends in Mexico with the observance of an antique custom called "the burning of Judas." It takes place on Saturday morning at about 10 o'clock, when the cathedral bells ring out announcing the "gloria" or resurrection of Christ. Judas is always a most absurd figure. He is sometimes dressed as a Turk, sometimes as a sailor, but commonly in an ordinary modern costume. He is stuffed with firecrackers inside, and at the hour of the "gloria" these are set off and burned in the public square, in the streets, in the houses—in fact, everywhere.

The *Northwestern Lumberman* is quite skeptical in regard to the introduction of paper as a substitute for iron in the manufacture of rails. That paper thinks the accomplishment of the idea is extremely doubtful. In the first place, it claims that there is literally no such thing as a paper car wheel. The office of paper is merely to furnish filling, the plates and bands being of iron. If the friction and pressure were applied to paper direct, it could never stand a fraction of the work to be encountered. It is hardly more probable that a paper rail could do any more. If it is an iron or steel rail on the half shell, stuffed with papier mache, it may be different; but a chunk of paper that will turn the point of a spike must be in somebody's mind.

DR. BENSON'S Skin Cure is without a peer. It consists of both external and internal treatment and costs only $1 per package, at druggists.
